3. What do you think the appropriate age to teach the children about reproduction is?

Answered: 32 Skipped: 0

The Curriculum

Images removed due to the sensitivity of the content and the groups decision to not include them in the curriculum proposal.

If someone asks to see, just tell them "no"

DfE Guidance

Changing adolescent bodies

- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes
- About menstrual wellbeing including the key facts about the menstrual cycle

Sex education expectations

There's no list of expectations for sex education at the primary level, as it isn't compulsory, but if you choose to teach it then the DfE recommends that it should:

- Make sure boys and girls are prepared for the changes that adolescence brings
- Draw on knowledge of the human life cycle set out in science lessons to explain how a baby is conceived and born

The Curriculum

Possible Resources

Images removed due to the sensitivity of the content and the groups decision to not include them in the curriculum proposal.

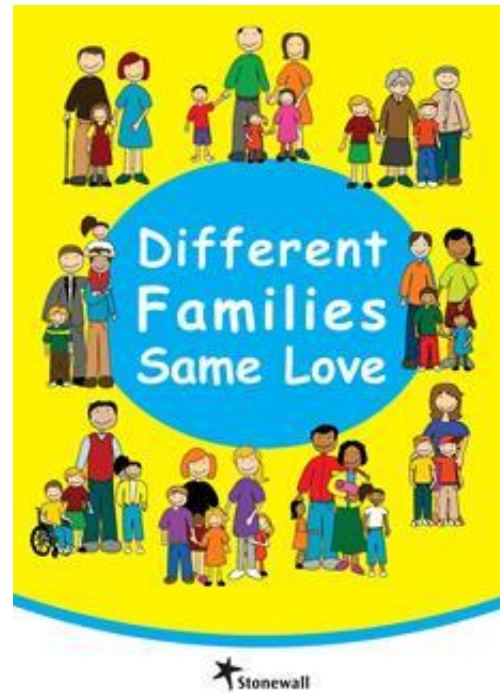

Typical responses to the parent survey

What is your view or understanding of the way we acknowledge and celebrate all of the families that make up our school community?

- I understand all family make up should be acknowledged but I don't agree that children should have to celebrate or be promoted LGBT lifestyles in the classroom especially if this lifestyle is contrary to their faith
- Only if a child is being bullied due to indifference
- I understand that there are different family set ups and being aware of this fact is fine.
- Good

School simply acknowledges that all of the families and individuals that make up our school community are of equal value - we do not teach LGBT+

Lowerplace does not use Stonewall Resources
